Summer Research and Clinical Externship

The UT Tyler School of Medicine offers high school students the opportunity to participate in a five-day summer camp devoted to educating participants about the various career opportunities in healthcare and public service. During campus visits, students are encouraged to consider the wide array of options that exist in medical and health-related careers while learning what they need to do to start preparing for a bright future.

FREQUENTLY ASKED QUESTIONS

What are the dates for the program?
- Cohort 1: June 5 – 16, 2023
- Cohort 2: June 19 – 30, 2023

What is the cost?
The cost of the camp for each student is $300. The fee will be applied towards the total expense of the camp, which includes all meals, lodging, transportation, and activities. Scholarships are available to students demonstrating financial need.

Who is eligible to apply?
- Students must complete the online application at https://super.summerscholars.ucm.edu/
- Must be able to attend all five days of camp
- Must be 16 years old by the first day of camp
- Must be in good academic standing
- Must be a high school student (grades 9-11)
- Must have a sincere desire to learn about medical careers

What activities are included in the program?
- Classrooms and laboratories
- Hospital tours
- Shadowing opportunities
- Field trips
- Research presentation at the end of the program
- And much more!

What is the application process?
- Online application available before February 3, 2023. Space is limited; students must apply by this date. Applications will be reviewed, and students will be notified of acceptance by April 14, 2023. Students selected for participation will receive more information.

Summer Preclinical Experience for Students

The UT Tyler School of Medicine offers high school students the opportunity to participate in a two-week summer camp devoted to educating participants about the various career opportunities in healthcare and public service. During campus visits, students are encouraged to consider the wide array of options that exist in medical and health-related careers while learning what they need to do to start preparing for a bright future.

FREQUENTLY ASKED QUESTIONS

What are the dates for the program?
